

Blind Coding

Participants will be given one question statement. One can read it only once in the beginning. Thereafter, participants can open his/her code editor in which they wish to code. Once the timer starts, the display will be turned off and participants can start coding without actually looking at their own code. Once they are done with the code, coordinators will evaluate their code.

Rules:-

1. Individual participation.
2. Any programming language is appreciated. There's no restriction on language.
3. Time limit: 40 min.
4. One cannot turn on the display to check their code. If found so, he/she will be disqualified.
5. There will be penalty for each incorrect submission.
6. The contest will be conducted on hackerearth platform.
7. Internet access is not allowed during the contest, other than for accessing the contest site. Teams will be disqualified otherwise.
8. Coordinators will evaluate your solution once you are done with it.
9. For any query for the course of contest, ask coordinators to help you out.

Benefits:-

1. Top 3 standings will be provided with the certificates and price money.

Infrastructure Requirements:-

Stationary items.

PC's with active internet connection.

Price Money:-

Based on the standings, following price money will be awarded:

1. INR 3000/-
2. INR 2000/-
3. INR 1000/-
